President Stone Asks Growers to Be Patient Just a Little Till Work Can Start

Inquiries for the tobacco pledged to the Burley Tobacco Growers' Co-operative Association already are being received at the offices of the association at Lexington. Among these was one received Saturday from a big brokerage concern asking for prices on three-quarters of a million pounds for export. Nothing was given out as to the reply sent to the inquiries.

A busy week is ahead of the new association, the largest of the kind in the United States. Four meetings of warehousemen are to be held with a view to arriving at a plan to take over their property as soon as possible. One of these is to be held at Carrollton Tuesday afternoon at 1 o'clock; one at Shelbyville Wednesday morning at 11 o'clock; one at Maysville Thursday afternoon at 1 o'clock, and one in Lexington Friday morning at 9 o'clock. The meeting at Carrollton will be attended by warehousemen from Indiana, and that at Maysville by the Ohio warehousemen.

Each warehouseman has been requested to bring with him authority of his stockholders and directors to transact business for them with the new association and to have facts relative to his property ready to submit. All four of the meetings will be attended by Warehouse Manager Ralph M. Barker and by Aaron Sapiro, of California, who has been the chief legal adviser of the association through the preliminary work of its organization.

Friday afternoon at 1:30 o'clock the board of directors will be in session again and will receive the reports of Mr. Barker and Mr. Sapiro. It is expected that the taking over of the warehouse properties needed by the association will follow soon after the board has passed upon the arrangement for the transfer.

Discussing the progress that has been made in the organization and the outlook for the future, President and General Manager James C. Stone said Saturday that everything possible was being done that can be done without unnecessary haste, to take care of the interests of the growers and to see that they got their money for their tobacco at the earliest possible minute. Mr. Stone said:

"Everything is being done to expedite matters so that tobacco may be received and advances made on it. Ralph M. Barker, who will be in charge of the receiving end of the business, will enter into definite negotiations next week for the purpose of leasing or purchasing all the receiving plants throughout the district.

"We have made a great deal of progress in getting technical preliminaries out of the way, and the 55,000 members, representing almost 200,000,000 pounds of tobacco, can rest assured that everything is being done as rapidly as possible to perfect the details of the organization necessary to the receiving, grading, making advances to the farmers and the selling of their tobacco.

"Mr. Barker has divided Kentucky into four receiving districts, with one district in Ohio and one in Indiana, and has made arrangements for conferences with the owners of the properties in the various districts next week for the purpose of presenting to them a definite proposition for the leasing or purchase of their plants.

"This association belongs to the growers, and the officers and directors recognize that fact and they therefore do not intend to do anything which might harm, or leave anything undone which might tend to benefit this biggest enterprise in Kentucky.

"We ask the growers, who for years have manifested remarkable patience under trying conditions, to be patient now with those to whom they have entrusted the management of their affairs. Undue haste might mean serious loss and, for that reason, we want to be sure of our ground before we proceed, just as men in charge of any big enterprise should do.

"All of the larger manufacturers have indicated, some by letter that they will not discriminate against the association, and that they will buy tobacco from us.

"The growers, in forming this association have established a tre-

Many of the troubles of the average person are "money troubles"—why not prepare for the future while you are prospering.

Every salaried man or woman or wage earner should make it a rule to bank a part of their income each week.

mentious business and, in my opinion, they have done a still bigger thing—they have taken a step which will mean not only prosperity and better living conditions to the farmer but prosperity for the business and professional men and for all those who have dealings of any kind with the growers of burley tobacco in Kentucky and the four adjoining states.

### This Little College Wants The Spot Light, Too

(By Associated Press) Emporia, Kan., Dec. 19—What their supporters claim as probably the nearest approach to the football record established by Centre College has been set by the College of Emporia. This Presbyterian college, whose student body numbers only 300, has

lost two football games in the Kansas conference in the last four years. For the first two years of the period it was state champion. The team's coach is Gwynn Henry, of Texas, who came here in 1918. The Emporia football team is from ten to twenty pounds lighter per man than the average team in the conference. Henry depends a great deal upon the speed of his men. He uses the direct pass from center.

## GET CERTIFICATES IN TO THE GOVERNOR

A statement asking that candidates who were elected at the November election see to it immediately that certificates of their election are forwarded to the Secretary of State was issued at Frankfort Saturday by Secretary Fred A. Vaughn. Secretary Vaughn said that officials who do not qualify by the first Monday in January cannot, under the law, qualify afterwards. Quite a number, he said, have not been certified to the Secretary of State. There are more than 1,200 officers to be commissioned by the governor and the secretary suggests that all persons entitled to

commissions and who have not received them, inquire of the sheriff of their county whether the election board had forwarded the certificates of election.

Louisville manufacturers ask Congress for the repeal of the Adamson law and also demand a big cut in freight rates in order to restore business.

## HERE'S DIRE FORECAST FOR YEAR OF 1926

(By Associated Press)

London, Dec. 19—The year 1926 is destined to shake the world to its foundations, both physically and politically. There will be succession of plagues, famines, floods, shipwrecks, rioting and revolution, according to the British Journal of Astrology, which has drawn its horoscope for that year, when Mars and Mercury will be in conjunction. Six years later the Great Armageddon will take place. "This will be the final conflict between Mohammedanism, allied with Bolshevism, against the united Anglo Saxon world. It will end in 1932 in universal peace, but with few of us left."
